UVA-3 Ultraviolet Torch

The UVA-3 is a hand-held battery powered Ultraviolet inspection lamp used for a range of NDT applications. The filtered 365nm output makes it ideal for Fluorescent Magnetic Particle Inspection (MPI), and Fluorescent Dye Penetrant Inspection (DPI), as well as leak detection applications when used with a suitable additive (such as Spectroline Oil-Glo).

- Fluorescent MPI and DPI
- Detect oil leaks (when used Oil-Glo)
- Mineral identification
- Glue curing
- Fluorescence of special materials
