4 FIRST AID MEASURES

- Inhalation:** Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. In case of unconsciousness place patient stably in side position for transportation.
- Skin Contact:** Immediately wash with water and soap and rinse thoroughly. If skin irritation continues, consult a doctor
- Eye Contact:** Immediately flush eyes with large amounts of water for at least 15 minutes, lifting eyelids to facilitate irrigation. Get immediate medical attention.
- Ingestion:** Clean mouth with water and drink afterwards plenty of water. Keep respiratory tract clear. Do NOT induce vomiting or attempt chemical neutralization. If symptoms persist, call a physician.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation

Environmental precautions: Do not allow to enter storm sewers/ surface or ground water.

Methods and material for containment and cleaning up: Collect liquid in an appropriate container or absorb with an inert material such as vermiculite, dry sand, or earth; DO NOT use combustible materials. Dispose contaminated material as waste according to item 13. Ensure adequate ventilation..Place in a chemical waste container.

7 HANDLING AND STORAGE

ER-83A

Handling Precautions: Avoid contact with eyes, skin, or clothing. Consider normal working hygiene.

Storage Requirements: Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully re-sealed and kept upright to prevent leakage. Containers may be hazardous when empty since residue liquid may be present

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: General and local exhaust ventilation is recommended to maintain exposures below recommended limits. Where concentrations are above recommended limits, respiratory protection should be worn. e.g., organic vapor cartridge with a particulate pre-filter.

Personal Protective Equipment: Chemical resistant gloves; Chemical safety glasses; Impervious clothing.

Engineering Controls: Use mechanical (general) ventilation for storage areas

Personal Protective Equipment: Chemical resistant gloves; Chemical safety glasses; No personal respiratory protective equipment normally required. In case of vapor formation or aerosols use an organic vapor respirator with dust, mist, and fume filters; Impervious clothing.

Exposure Limits:

CAS No.	Components	Value type	Value	Basis
